Requirement for a replacement type plate

Dear Sirs,

You asked us to provide you with a replacement type plate for the hitch mounted on your vehicle.

However, according to a decision by the Federal Motor Transport Authority, direct delivery of type plates to the vehicle owner is no longer permitted.

Type plates can only be sent if an affidavit is submitted from a workshop, confirming among other things, the identity of the towbar.

The processing fee for the nameplate is € 18.10 + VAT and is only available against prepayment.

To facilitate this process, you will receive an affidavit enclosed for your workshop, which you should complete and send to the email address info@acps-automotive.com. As soon as we have received this form, completed and signed with a legally binding signature, you will receive your invoice by email. The nameplate will be delivered to your workshop once payment has been credited to our account.

With kind regards

ACPS Automotive GmbH
