Your demand for a spare type plate

Dear Sir or Madam

You have asked us for the supply of a spare type plate for the installed towing device on your vehicle.

According to a decision of the Federal Office of Motor Vehicles and Drivers, a direct supply of the type plate to the keeper of the vehicle is not allowed anymore.

The supply of the type plate is only possible if a declaration in lieu of an oath from the garage is shown, in which the identity of the towing device is confirmed. Above that the type plate must be fixed on the towing device by a garage.

In order to facilitate this procedure, we enclose a declaration in lieu of an oath for your garage. As soon as we receive this form completed and affixed with an obligatory signature, we will deliver the type plate to your garage at short notice.

Yours faithfully

ACPS Automotive GmbH
